Subject VB/I70 Access to Residential Properties

The VB/I70 Team is developing an enforcement/communication strategy to seek access to the remaining 160 properties for sampling and 30 properties identified requiring cleanup. The strategy is focused on completing the project in 2006 and will have different approaches for resident homeowners and landlords. The team is planning to complete the strategy by the end of January. At that time, I need to present this plan to Max for his buy-in. Max, has been reluctant to use enforcement to obtain access to residential properties. However, the team believes that there are instances that the use of enforcement is warranted.

Do you wish to be briefed on this issue prior to meeting with Max?
